EDUCATION

10/2004-12/2008

Ph.D in Biotechnical Sciences

University of Belgrade, Faculty of Agriculture, Serbia

- Ph.D thesis: Biological and productive characteristics of apple "knip" nursery trees and their influence on the vegetative and generative potential of trees in the productivity.

10/2004-12/2008

M.Sc. in Biotechnical Sciences

University of Belgrade, Faculty of Agriculture, Serbia

- Master thesis: The influence of training systems on the vegetative and generative potential of peach varieties.

PROJECTS

2022, up to now

Researcher on the project based on the agreement between the Ministry of Education, Science and Technological Development and the Faculty of Agriculture, University of Belgrade on the realization and financing of scientific research.

Ministry of Education, Science and Technological Development of the Republic of Serbia

2011-2022

Researcher on the project „Studying climate change and its influence on the environment: impacts, adaptation and mitigation“

Ministry of Education, Science and Technological Development of the Republic of Serbia

2011-2022

Researcher on the project „The application of new genotypes and technological innovations for the purpose of improvement of fruit-growing and viticultural production“

Ministry of Education, Science and Technological Development of the Republic of Serbia

2021-2022

Researcher on the project „Optimization of highbush blueberry growing technology under both protected and field conditions in order to increase the content of bioactive components in the fruits as parameters of "functional food"“

Ministry of Education, Science and Technological Development of the Republic of Serbia and Ministry of Higher Education, Science and Innovation of the Republic of Slovenia

RECENT PUBLICATIONS

The total *number* of publications during the career – 125, *h-index* 11 (Source Scopus).

MORE APPLICABLE

Member of ISHS (International Society for Horticultural Sciences)

Member of the European Working Group on Fruit Thinning (EUFRIN)

The author of two textbooks, published by Faculty of Agriculture, University of Belgrade, 'General fruit growing' and 'Fruit growing and viticulture'.
